Jonathan Eastman, M.D.

Philosophy of Care
I believe that the osseous and soft tissue injuries of each patient are unique. Successful and optimal treatment of each injury relies on the understanding of the fracture and the development of a plan that delivers the best care possible. I strive to provide the highest level of both conservative and operative management to my patients by combining classic methods of care along with safe, newly emerging surgical techniques, devices, and treatment philosophies.

Clinical Interests
My clinical interests include polytraumatized patients, long bone fractures, periarticular fractures, the upper and lower extremities, and complex injuries of the pelvic ring and acetabulum.

Title
Assistant Professor

Specialty
Orthopaedic Surgery - Trauma

Department
Orthopaedic Surgery

Division
Traumatology

Address/Phone
Lawrence J. Ellison Ambulatory Care Center, Orthopaedic Surgery, 4860 Y St. 3800 & 1700 (Clinic) Sacramento, CA 95817
Phone: 916-734-2700

Additional Phone
Physician Referrals: 800-4-UCDAVIS (800-482-3284)

Education
M.D., Pennsylvania State University College of Medicine, Hershey, Pennsylvania, 2006
B.S., UC Davis, Davis, California, 2001

Internships
University of California, Davis, Sacramento, CA, 2006-07

Residency
University of California, Davis, Sacramento, CA, 2011

Fellowships
University of Washington, Harborview Medical Center, Seattle , WA, 2012

Board Certifications
American Board of Oropaedic Surgery - Orthopaedic Trauma, 2014

Professional Memberships
American Academy of Orthopaedic Surgeons
California Orthopaedic Association
Orthopaedic Trauma Association
Western Orthopaedic Association

Honors and Awards
