Debra D. Wright, M.D.

Philosophy of Care
Debra Wright's focus is on patient centered care. She strives to create an environment that is open to conversation, education and discussion. She believes a woman should play an active role in the decisions regarding her health care.

Clinical Interests
Debra D. Wright is a Health Sciences Clinical Professor at the UC Davis Medical Center in Obstetrics & Gynecology. The scope of her practice encompasses women's health care from the teen years through menopause. Her medical expertise includes well woman care, pregnancy and delivery, menstrual problems, contraception, management of abnormal pap smears, and treatment of menopausal symptoms & problems.
