
William J. Bommer, M.D.

Clinical Interests William J. Bommer clinical interests focus on sonography (thoracic esophageal and gastric imaging) and intraluminal echocardiography. Bommer is evaluating risk factors for preclinical disease, morbidity and mortality in patients aged 65 or older. His diagnostic cancer modalities include a mouse tumor model with human tumors, using echo contrast and super paramagnetic agents to target tumors. Other projects involve computer simulation of blood-flow models in finite difference analysis, restenosis prevention with time-release oligonucleotide site-specific delivery, bronchial airway circulation, and new contrast agents.

Title Director of Noninvasive Services
Professor

Specialty Cardiology, Cardiovascular Medicine, Internal Medicine

Department Internal Medicine

Division Cardiovascular Medicine

Center/Program Affiliation Cardiovascular Services

Address/Phone Lawrence J. Ellison Ambulatory Care Center, Cardiology Clinic, 4860 Y St. Suite 0200 Sacramento, CA 95817
Phone: 800-282-3284

Additional Phone Physician Referrals: 916-734-5678

Education M.D., State University of New York School of Medicine, Buffalo, New York, 1972
B.A., Cornell University, Ithaca, New York, 1968

Internships State University of New York, Buffalo, New York, 1973

Residency State University of New York, Buffalo, New York, 1975

Fellowships Martinez VA Hospital , Martinez, California, 1977
University of California, Davis Medical Center, Sacramento, California, 1977

Board Certifications American Board of Internal Medicine, 1975
American Board of Internal Medicine, Cardiovascular Disease, 1977

Professional Memberships American College of Cardiology
