Haines Ely, M.D.

Clinical Interests Dr. Haines Ely M.D has been teaching residents at UC Davis since 1975 (before there was a full time department of dermatology). He is particularly interested in dermatologic therapy and has lectured on the most recent advances in therapy all over this country as well as in Europe and Australia. In 1996 he spoke on "What's new in dermatologic therapy" at the American Academy of Dermatology annual meeting in Washington D.C. His topic was "Tumor necrosis factor inhibition in dermatologic disease." This was years before our current biological tnf inhibitors were discovered. He loves to see the most difficult cases with our residents and often comes up with novel therapies for untreatable conditions. He also has a special interest in teledermatology applications here at UC Davis and sees patients in the telemedicine department one day a week.

Title Associate Physician

Specialty Dermatology

Department Dermatology

Division Dermatology

Clinic Dermatology Clinic

Address/Phone Cannery Building, Dermatology, 3301 C St. Suite 1300-1400 Sacramento, CA 95816
Phone: 916-734-6111

Additional Phone Physician Referrals: 800-4-UCDAVIS (800-482-3284)

Education M.D., University of Southern California, Los Angeles, California, 1971
A.B., Stanford University, Stanford, California, 1967

Internships University of Southern California/Los Angeles County Medical Center, Los Angeles, California, 1972

Residency University of Southern California/Los Angeles County Medical Center, Los Angeles, California, 1975

Board Certifications American Board of Dermatology , 1976
American Board of Pathology, Dermatopathology, 1980
