NEEDS ASSESSMENT

The role of the anesthesiologist is to provide the patient with excellent perioperative pain control using multimodal pain techniques. One of the most important techniques which the physician needs to perfect is the performance of peripheral nerve blocks utilizing ultrasound guidance. The purpose of this workshop is to provide the physician with a comprehensive update on the latest developments in ultrasound guided regional anesthesia. This will be accomplished through didactic lectures and practice on live models, followed by extensive practice with cadavers and simulated upper and lower extremity torsos. Emphasis will be placed on scanning technique, image interpretation, needle guidance and continuous catheter insertion techniques.

This 1 ½ day workshop will provide practitioners with evidence based methods and strategies to assist them in providing better treatment options for their patients. Faculty presenting and interacting with participants at this activity have been selected on the basis of their comprehensive clinical experience and academic excellence.

Target Audience

The course is designed for anesthesiologists and pain medicine physicians involved with the perioperative care of surgical patients.

PHOTOGRAPHY AND VIDEO

A photographer may take photos and/or videos of participants at the workshop. These photos and videos are for our use only and may appear on our website and in printed brochures or other promotional materials. Attendees’ registration grants UC Davis Department of Anesthesiology & Pain Medicine permission and consent for use of this photography and video.
EDUCATIONAL OBJECTIVES

At the end of the program, participants should be able to:

- Discuss and describe ultrasound equipment operations, scanning technique and sonoanatomy
- Identify the tip of the block needle using conventional and echogenic needles
- Demonstrate successful placement of continuous nerve catheters using ultrasound guidance

Demonstrate the ability to successfully perform:

- Ultrasound guided peripheral nerve blocks above the clavicle
- Ultrasound guided peripheral nerve blocks below the clavicle
- Ultrasound guided axillary nerve block
- Ultrasound guided femoral/adductor canal nerve blockade
- Ultrasound guided sciatic popliteal blockade
- Ultrasound guided pectoralis block
- Ultrasound guided truncal block
- Ultrasound guided fascia iliaca block

ENROLLMENT

Registration for the 1 ½ day workshop is limited to 20 registrants and is filled on a first-come, first served basis. This workshop will fill up quickly so Register Early! Early enrollment tuition is $1299. Confirmation of registration will be sent within two weeks after receipt of enrollment form.

Tuition includes a continental breakfast, refreshment break, lunch, and a certificate of attendance. Duplicate certificates are $15. Tuition may be paid by check, American Express, Discover, MasterCard or VISA. Cash is not accepted. Refunds must be requested by May 8, 2016 and will be subject to a $75 administrative fee. Program materials cannot be guaranteed unless enrollment is received by May 20, 2016. The Department of Anesthesiology and Pain Medicine reserves the right to cancel this program. In such a case, a full refund will be given.

Registration forms received without payment will not be processed until payment is received, and payment must follow within 10 days. Early discount rates are honored if payment is received by the date noted on the enrollment form. After that date, the late fee is applied.

CANCELLATION AND REFUND POLICY

A refund of tuition, less $75 administrative fee, will be allowed if requested in writing by May 8, 2016. No refunds will be provided after this date.

LOCATION
Granite Bay Golf Club
9600 Golf Club Drive
Granite Bay, CA 95746
http://tinyurl.com/llbmc4r

Granite Bay Golf Club, a premier Northern California golf club, is located in the Sierra Foothills east of Roseville, near the western shore of Folsom Lake, among granite outcroppings, mature oaks and natural lakes.

Cadaver Lab Location
The Cadaver Lab is held at the UC Davis Medical Center Anatomy Lab located in Facilities Support Services Building, 4800 2nd Avenue, Sacramento 95817.

Parking is available onsite. Please consider layered clothing as temperature conditions may vary in the meeting room.

LOCAL ACCOMMODATIONS
Courtyard Sacramento Midtown
4422 Y Street
Sacramento, CA 95817
T: 916-455-8600

If you have any special needs due to a disability as specified in the Americans with Disabilities Act, please call the Department of Anesthesiology and Pain Medicine at (916) 734-1574 so we may make the necessary accommodations for you.
