Clinical Services Grants

Maximum award: $50,000
Maximum duration: 2 years

Clinical Services Development Grant/Award Information

These funds cannot be used for licensing and certification. Only one request per applicant, per
category, per year is permitted. Funding of these projects should occur only if other sources of
funding are not available, such as capital equipment, hospital unit budget or departmental budgets.
Funding of clinical services grants will be for a two-year period. Unspent funds will revert to CMN
for disbursement with collected funds after the second year. **Subsequent funding requests for new
grants will only be considered if the grantee’s progress report for the previous year(s) has been
received.**

**Clinical Services Grants** – These funds support projects and equipment that enhance the clinical
care of children and contribute to the UC Davis Health System strategic goals as listed in the 2011-
2016 Strategic plan (link listed below). Examples include medical equipment specific to the special
needs of children not typically provided in hospital budgets, or purchase of books and materials for
use in the development of clinical pathways specific to the treatment of children. Other examples of
prior awards include child-specific medical equipment such as equipment used in the Children’s
Hospital Transport Program, education programs to improve pediatric care, the production of
videotapes, pamphlets and other educational materials, and distribution of child car safety seats.
