

## Clinical Services Grants

Maximum award: \$50,000

Maximum duration: 2 years

### Clinical Services Development Grant/Award Information

These funds cannot be used for licensing and certification. Only one request per applicant, per category, per year is permitted. Funding of these projects should occur only if other sources of funding are not available, such as capital equipment, hospital unit budget or departmental budgets. Funding of clinical services grants will be for a two-year period. Unspent funds will revert to CMN for disbursement with collected funds after the second year. **Subsequent funding requests for new grants will only be considered if the grantee's progress report for the previous year(s) has been received.**

**Clinical Services Grants** – These funds support projects and equipment that enhance the clinical care of children. Examples include medical equipment specific to the special needs of children not normally provided in hospital budgets, purchase of books and materials for use in the development of clinical pathways specific to the treatment of children. Other examples include child-specific medical equipment as used in the Children's Hospital Transport Program, education programs to improve pediatric care, the production of videotapes, pamphlets and other educational materials, and distribution of child car safety seats that have been funded through CMN grants.
