Presenter/Author Continuing Nursing Education (CNE) Vested Interest Disclosure Statement

In order to assure the highest quality of continuing nursing education programming, UCDHS requires that individuals who are serving as a speaker/faculty of Provider Directed CE (conferences, workshops, conventions) or as an author of Learner Directed CE (independent study modules), disclose any information relating to a conflict of interest or potential conflict of interest prior to this educational activity. Disclosure of conflict of interest does not preclude one from serving as a speaker/faculty or author. A conflict of interest, however, will be disclosed to the attendees in a brief statement in the promotional materials in the printed program or to registrants for an online/printed independent study module in the study guide.
