Bill Hammontree is the Program manager for the Center for Virtual Care (CVC) and is responsible for the day to day operations of the center.

Bill's role in simulation comes after working nearly two decades in emergency medicine. He joined UC Davis Health as a trauma technician in 2000 and during that time, earned a nursing degree and continued to work in the ED.

Bill has a wide range of experience stemming from a decade as a Naval Aviator and Rescue Swimmer, to participating in community theater.
