Join us for an evening of presentations and discussions on unmet medical needs and medical technology commercialization. Network with like-minded faculty, students (law, business, etc), healthcare professionals, entrepreneurs, engineers, other business executives.

The Medical Technology Commercialization Clinic is funded by the NSF Partnerships for Innovation program, and administered by the Center for Biophotonics Science and Technology at UC Davis.

Julio Palmaz, M.D., Chairman and Chief Scientist, Palmaz Scientific; Ashbel Smith Professor, UTHSSA

John Laird, M.D., Medical Director, UC Davis Vascular Center
