Bargaining Update #11: UC-AFSCME Patient Care Technical Unit

UC and AFSCME discussed proposed terms for a new contract for patient care technical employees when they met Nov. 16, 2012 to continue negotiations.

The university presented proposals on leaves of absence and sick leave. The union presented a package of proposed terms that showed a potential for some tentative agreements.

The next bargaining session is Nov. 30, 2012 at UC San Diego, when UC and AFSCME will continue to discuss each other’s proposals.

UC remains dedicated to constructive bargaining and will consider the unions’ proposals in good faith. UC will make every effort to reach an agreement in an efficient manner that is fair, feasible and acceptable to both sides.
