Bargaining Update #12: UC-AFSCME Patient Care Technical Unit

UC met with the American Federation of State, County and Municipal Employees (AFSCME) on Nov. 30, 2012 in San Diego to continue negotiations for a new contract covering patient care technical employees.

At the meeting, the AFSCME team informed the university that it intends to pursue a declaration of impasse, and asked UC to join the union in filing for a formal declaration of impasse with the state Public Employment Relations Board.

UC and AFSCME have achieved agreement on a number of contract provisions during the course of negotiations, and UC remains focused on and committed to resolving outstanding differences at the bargaining table and reaching an agreement on a new multi-year contract that is fair to both employees and UC. UC encourages AFSCME to work collaboratively to reach an agreement as expeditiously as possible.

The next bargaining session is scheduled for Dec. 13-14, 2012 in Sacramento.
