SLIPS, TRIPS, FALLS PREVENTION

Slips, trips and falls at UCDHS account for 18% of all work related injuries at this location.

Injury prevention is everyone’s responsibility and in an effort to reduce slips, trips and falls we offer the following “best practices” to consider:

- Be aware of slippery surfaces; report and remove hazards immediately
- Post wet floor “pop-up” signs and contact Environmental Services for immediate assistance
- Routinely check for loose power cords and cables; make appropriate corrections
- Avoid using cell phones and texting while walking
- Be attentive and always “Watch Your Step” - especially around construction zones

INCLEMENT WEATHER

- Wear appropriate footwear for weather conditions
- During wet weather use floor mats and umbrella bags at entry points to reduce water on floors
- Use slip resistant shoes in icy conditions (Home Health visits)

SLIP and FALL PREVENTION TEAM
