Date Change for Lump Sum for RX and TX Employees

A previous HR Bulletin announced a one-time, non-base building, non-UCRP eligible $1,000 lump sum payment for all RX and TX employees, including those with limited and per diem appointments, who were in the RX or TX unit on the contract ratification date of March 25, 2010 and who were still in the unit on July 7, 2010.

Unfortunately, the University of California has discovered a calculation error in the programming for the lump sum for biweekly paid employees, which includes those at the UCDHS medical center and medical school. This means that the employees who would have received their lump sum payment on July 21, as previously announced, will instead receive the payment on August 4, 2010.

The University extends its sincere apology for this error and for the delay in payment of the lump sum.

Questions can be directed to the Compensation Unit at 734-5009.
