UC Learning Center System Upgrade

The UC Learning Center is the learning management system now used on all University of California campuses, including the UC Davis Medical Center campus. This system allows employees to enroll in courses, view course descriptions, and view their training transcripts. The UC Learning Center will undergo a scheduled system upgrade from Monday, February 20th through Wednesday, February 29th.

During the upgrade, the UC Learning Center will remain open for faculty and staff to access and enroll for training. Any new course enrollments and course completions during the upgrade process will be carried forward to our upgraded system, which is scheduled to go live on Thursday, March 1st.

IMPORTANT NOTE: If you start or partially complete an online (e-learning) course between February 20th and February 29th, it is important that you complete it by February 29th. If you do not, partial progress made in an online course will NOT be carried over to the upgraded system on Thursday, March 1st and you will be required to start the course again from the beginning.
