Re: Notice of Intent to Award in Response to Innovation in Data Analytics Awards RFP

Those proposals submitted to the California Health eQuality (CHeQ) Program in response to the Innovation in Data Analytics Awards request for proposals have been evaluated by an Objective Review Committee. After considering the Committee's recommendations, the Institute for Population Health Improvement (IPHI), the California Health and Human Services Agency's HIE partner, has selected and hereby intends to award contracts to the following two qualified applicants:

**Inland Empire Health Information Exchange (IEHIE)**

**Tahoe Forest Hospital District (TFHD)**

This Notice of Intent to Award is subject to execution of written contracts and, as a result, this Notice does not constitute the formation of a contract between IPHI and either of the two apparent successful applicants. The applicants shall not acquire any legal or equitable rights relative to the awards until contracts containing terms and conditions acceptable to IPHI are executed.

IPHI appreciates the efforts of all applicants who responded to this request for proposals.

Sincerely,

Scott Christman
Program Director, California Health eQuality Program
