9th UC Davis
Research Retreat on Host-Microbe Interaction

November 5-6, 2015, Granlibakken Conference Center, Tahoe City, CA

Organizers
Satya Dandekar
Andreas Bäumler

Registration
The registration deadline is September 25th. Poster presentations are welcome! Please contact Karryn Doyle at kdoyle@ucdavis.edu for information about registering.

Topics
The meeting covers a broad range of topics stretching from microbial physiology to the host immune system, including work on bacteria, viruses, parasites, vectors, microbial communities and the immune responses of plants, mammals and invertebrates.

Faculty speakers
Katherine Ralston, Microbiology and Molecular Genetics
Sean Collins, Microbiology and Molecular Genetics
Lark Coffey, Pathology Microbiology and Immunology
Jeroen Saelj, Pathology Microbiology and Immunology
Colin Reardon, Anatomy Physiology and Cell Biology
Melanie Gareau, Anatomy Physiology and Cell Biology
Jonathan Eisen, Evolution and Ecology
David Rizzo, Plant Pathology
Gitta Coaker, Plant Pathology
Clare Casteel, Plant Pathology
Matthias Hess, Animal Science
David Mills, Viticulture and Enology

Oral Presentations by Students and Postdocs
Eric Nonnecke, Nutrition
Xiaochen Yin, Food Science and Technology
Hyrum Gillespie, Plant Biology and Plant Sciences
Oanh Pham, Anatomy Physiology and Cell Biology
Trang Nguyen, Pathology Microbiology and Immunology
Clarisea Rocha, Medical Microbiology and Immunology
Kristen Lokken, Medical Microbiology and Immunology
Christopher Lopez, Medical Microbiology and Immunology
Gema Méndez-Lagares, Medical Microbiology and Immunology
Lalitha Souvannavong, Medical Microbiology and Immunology
Guochun Jiang, Medical Microbiology and Immunology
