Faculty Executive Committee (FEC)
The Faculty Executive Committee shall consider all matters of general concern to the Faculty. Bring before the Faculty any recommendations generated by it, by the other Standing Committees and by Special Committees of the Faculty. Make recommendations to the Faculty concerning the disposition of existing or new departments and organized divisions into groups defined in Article 4.0. Circulate to the Faculty all important motions at least two days in advance of the regular meeting of the Faculty. Act for the Faculty within the bylaws and Regulations of the Faculty of the School of Medicine. All actions taken on behalf of the Faculty shall be reported to the Faculty at the next meeting. Appoint ad hoc committees as necessary.

Admissions Committee
The Admissions Committee shall evaluate the credentials of applicants for admission to the School of Medicine. The Committee shall provide an annual report to the Faculty Executive Committee. Its subcommittees are:

- The Ranking Subcommittee shall review all data available from the admissions process and submit ranked lists of applicants to the Steering Subcommittee.

- The Steering Subcommittee shall provide oversight and integration of all phases of the Committee processes, and develop policies necessary to govern the process, including School Of Medicine admissions criteria. The Steering Subcommittee shall make recommendations regarding admissions and submit their recommendations for admissions to the Selection Subcommittee. Proposed changes to School Of Medicine admissions criteria shall be voted on by Academic Senate members of the Steering Subcommittee only.

- The Selection Subcommittee shall review the recommendations of the Steering Subcommittee and make final decisions regarding offers of admission to the School of Medicine.

Committee on Educational Policy (CEP)
Defines and implements goals, objectives, and structure of the curriculum; oversees curricula and evaluates course content; establishes teaching and student evaluation guidelines for instructors; recommends criteria for evaluation and promotion of students; recommends criteria for student evaluation of faculty teaching performance; and consults with Admissions Committee on the academic prerequisites for admission. New volunteers are asked to provide a brief summary of teaching involvement. Its subcommittees are:

- The Fourth Year Oversight Subcommittee is responsible for approval of fourth year curriculum programs submitted by students and their advisors and making recommendations for changes to the Committee in fourth year requirements.

- The Level Two Course Evaluation Subcommittee is an advisory subcommittee responsible for periodic, in-depth evaluation of courses and clerkships.

- The Block Council is an advisory subcommittee responsible for integration of the curriculum for the first three years.
The Curriculum Review Subcommittee is an advisory subcommittee responsible for a comprehensive review of the curriculum for the medical degree every two years to evaluate the coherence, coordination and effectiveness of the curriculum.

Committee for Honors and Awards (CHA)
Develops and maintains effective system for distribution of honors and awards to students; selects recipients from the medical classes or medical faculty for specifically defined awards; and advises on criteria for the establishment of new awards.

Committee for Research Affairs (CRA)
Reviews applications for research support awarded within the UC Davis School of Medicine (UCDSOM) and UC Davis Medical Center (UCDMC); reviews and selects candidates from medical classes or from the medical faculty for research awards; and provides advice on matters relating to research.

Committee on Faculty Affairs (CFA)
Acts as an ombudsman; advises on publication matters such as plagiarism, censorship and right of authorship; advises in matters involving academic freedom, including issues related to discrimination; considers appeals and special problems relating to faculty appointments and promotions; and considers other matters pertinent to faculty welfare.

Committee on Rules, Jurisdiction and Organization (CRJO)
Upon request, CRJO reviews recommendations of committees of the faculty in order to assure consistency with existing rules and regulations of the UCDSOM.

Committee on Student Promotions (CSP)
Reviews and evaluates student progress; certifies promotion into years two, three, and four. The committee has the authority to place a student on probation, establish the duration of probation, prescribe steps for remediation of performance deficiencies, remove student from probation, and to recommend dismissal. Members shall have contributed to the teaching of medical students.

Research Space Advisory Committee (RSAC)
Advises the Associate Dean for Research on the setting of policy for allocation of research space to the Faculty of the School of Medicine, both preclinical and clinical, and advises the Associate Dean for Research regarding the implementation of these policies.

Research Space Allocation Appeals Committee (RSAAC)
Hears complaints and appeals of individual faculty members with regard to intra-departmental assignment of research space, and transmits findings and recommendations regarding such appeals to the Associate Dean for Research and the department chair.
