

ASHLEY YOUNG

Ashley received a Bachelor of Arts degree from Stanford University in Human Biology. She will receive her medical degree from the University of California Davis School of Medicine in 2006. Ashley conducted background research and analyzed pregnancy outcomes for a population based study of women with chronic hypertension. She co-wrote the paper, "Pregnancy Outcomes in Women with Chronic Hypertension: A Population—based Study", submitted to the British Journal of Obstetrics and Gynecology

ELIZABETH A. MICKS

Elizabeth received a Bachelor of Arts degree from Stanford University in Linguistics. She will receive her medical degree from Jefferson Medical College of Thomas Jefferson University in 2006. As Executive Board Member of the Sims Society the Obstetrics and Gynecology interest group at Jefferson Medical College, Elizabeth helped organize supplemental lectures for medical students in order to expose them to the specialty. She continues this day to participate in advising and supporting students interested in OB/GYN

ERICA W. CHAN

Erica received a Bachelor of Arts degree from the University of California Berkeley in Molecular Cell Biology. She will receive her medical degree from the Medical College of Wisconsin in 2006. As a member of the OB/GYN Interest Group, Erica managed the finances of the group, organized speakers and worked on starting a program for medical students to follow women through their pregnancies.

CAROL W. HUANG

Carol received her Bachelor of Arts degree from Brown University, Providence RI in Biology. She will receive her medical degree from the University of San Diego School of Medicine in 2006. As Coordinator of Doctors Ought To Care, Carol recruited medical students to be involved in the project, established communication with local high schools to introduce the project, organized volunteer training and established the project curriculum for volunteers. She created the evaluations for teachers and volunteers to access the project and served as liaison between students, community partners, and Dr. Covell.

JENNIFER A. CONWELL

Jennifer received her Bachelor of Arts degree from California State University San Jose in Biology. She will receive her medical degree from the University of California San Francisco School of Medicine in 2006. With UCSF Area of Concentration Program, Jennifer was a Teaching Assistant for gross anatomy and cardiovascular, respiratory, and renal organ systems courses, working with first year medical students. She also was the Embryology lab facilitator for second year medical students and patient simulator facilitator for first year students.

AISHA R. TAYLOR

Aisha received her Bachelor of Arts degree from California State University San Jose in General Biology. She will receive her medical degree from Temple University School of Medicine in 2006. As Treasurer and Vice President of the OB/GYN Interest group she coordinated activities and guest speakers for students interested in the field of OB/GYN. Has worked in many Community Service Activities such as community health fairs and role model activities for youth interested in college and medical school and has volunteered as Pregnancy Crisis Counselor for women needing financial assistance and shelter placement providing follow-up care with all her clients.

Colleagues,

*Please welcome our new
Obstetrics and Gynecology
residents for the 2006 - 2007
academic year.*

*They are all highly
qualified, and we are confident
that we will have a fulfilling
experience helping them become
obstetrician/gynecologists.*

*Mary C. Ciotti, M.D.
Associate Professor and
Residency Program Director
Department of Ob/Gyn*

University of California, Davis
