University of California, Davis Health
Department of Biochemistry and Molecular Medicine
Department of Obstetrics and Gynecology

Assistant or Associate Professor
In Residence or Regular Professor Series

The University of California, Davis, School of Medicine, Department of Biochemistry & Molecular Medicine and Department of Obstetrics & Gynecology jointly invite applications for a full-time academic position at the Assistant or Associate rank in the In Residence or Regular(50%)/In Residence(50%) series.

Basic qualifications for this position are as follows:
Ph.D. degree and at least two years of productive postdoctoral experience.
Demonstrated record of successful, independent, extramurally funded research program.
Experience teaching medical students, residents and fellows.
Experience or ability to foster collegiality and work collaboratively in a diverse environment.

Preferred qualifications:
Research background focused on the genetic basis of gynecologic cancers, primarily ovarian cancer.
Background in molecular biology (especially in biological function regulation), genomics, proteomics, bioinformatics, drug discovery and extensive experience with translational research centered on gynecological and related cancers.
Expertise in in vitro cellular and animal models, Cancer genomics, bioinformatics and biostatistics, and pharmacology.

Active extramural grant funding, a record of excellence, creativity and initiative in research which establishes a strong potential to build a vigorous and competitive research program, and demonstrated ability to work with clinical oncologists on translational research in which potential clinical applications would include early diagnosis and novel therapeutic approaches.

This position will be primarily focused on elucidating the genomics of ovarian cancer, with a secondary focus on functional genomics leading to a novel therapeutic approach to ovarian cancer treatment. These investigations will fit into precision cancer medicine that considers driver mutations, which may be potential targets for experimental therapeutics.

The incumbent will be expected to engage in studies that are team based and multi-disciplinary, at the intersection of cancer genomics, drug discovery, bioinformatics, molecular biology, cancer biology and clinical oncology, enabling a wide range of possible collaborations and high-level research training for students with diverse backgrounds. Participation in departmental committees and community outreach is expected, as applicable.

For full consideration, applications should be received by October 9, 2017; however this position will remain open until filled or June 30, 2018.
Applicants should upload their cover letter, curriculum vitae, 3-5 letters of recommendation/references, statement of contributions to diversity, a statement of research (include past and present accomplishments and future goals) and three significant publications online at: https://recruit.ucdavis.edu/apply/JPF01796

This recruitment is at the Assistant/Associate rank. The resulting hire will be at the Assistant/Associate rank.

The Biochemistry and Molecular Medicine Department is housed in both the Medical campus at Sacramento and the Davis campus. The Department of Obstetrics/Gynecology is located at the Medical campus in Sacramento.
Faculty appointed through this search will be housed at Oak Park Laboratory at the Medical campus at Sacramento, where the Department office and the laboratory of the Department Chair, Dr. Kit S Lam M.D., Ph.D. are located. The Department has strong links to the NCI-designated Comprehensive Cancer Center, the M.I.N.D. institute, the Center for Neuroscience, Chemistry Department, and the Genome Center. The Davis campus is the third largest in the University of California system and ranks among the nation’s top 20 universities in research funding.

UC Davis recognizes the necessity of supporting faculty with efforts to integrate work, family and other work-life considerations. To recruit and retain the best faculty, the campus sponsors a Work Life Program that provides programs and services that support faculty as they strive to honor their commitments to work, home and community. http://academicaffairs.ucdavis.edu/programs/work-life/index.html

The UC Davis Partner Opportunities Program (POP) is a service designed to support departments and deans offices in the recruitment and retention of outstanding faculty. Eligibility for POP services is limited, for full program details please visit http://academicaffairs.ucdavis.edu/programs/partner-opp/index.html.
For questions regarding how these policies/programs affect academic appointees, contact:
Lisa Brodkey, Director
Faculty Relations and Development,
