CPE Residency in Palliative Care

Description

The second year level II residency in Palliative Care program builds upon the pastoral skills and identity formulated in the potential resident’s previous yearlong residency. This residency will emphasize the pastoral authority, leadership skills, interdepartmental relationships, professionalism and community interaction needed in functioning within a pastoral care program. Independent study and research is encouraged. Second-year residents assume some administrative responsibilities, offer staff education, as well as community education.

This position is open to anyone who has successfully completed a first year residency at an accredited ACPE center. In addition, s/he will be responsible for other clinical areas. The Level II residency will provide opportunity for the resident to engage in a structured care and research project in the area of Palliative Pastoral/Spiritual Care.

Expectations:

- Focus on Palliative Care as a specialty
- Provide timely and competent pastoral/spiritual services
- Complete CPE program and curriculum requirements as negotiated with supervisor and CPE center
- Assist the staff to understand the impact of spirituality in Palliative Care through innovative and dynamic means
- Participate in on-call rotation with other CPE participants

Requirements for entry into this joint program are:

- Completion of M.Div. or equivalent
- Completion of 4 units of ACPE CPE with at least one Level II unit (Preferred)
- Successful application to the UC Davis Medical Center Clinical Pastoral Education Program for second year residency

Benefits:

- Stipend - $35,000 paid monthly
- Free Parking
- Holidays and PTOs

Tuition

Unit 1 is $500, Units 2, 3, and 4 = $250 per unit
