PATHOLOGY & LABORATORY MEDICINE
GRAND ROUNDS
November 23, 2015
MONDAY
12:00 – 1:00PM
PATH BUILDING, ROOM 1002
4400 V STREET
SACRAMENTO, CA 95817

Ivana Delalle, MD, Ph.D.
Associate Professor
Departments of Pathology and Laboratory Medicine
and Neurology,
Boston University School of Medicine

Presents,

“Exosomal microRNAs as Biomarkers for Bipolar Disorder and Schizophrenia”

Objectives:
1. Define biomarkers.
2. List epigenetic modifications and experimental methods to evaluate their role in the development of behavioral disorders.
3. Describe exosomes.
4. Identify technologies to obtain microRNAs that can serve as disease biomarkers.
