Department of Pathology & Laboratory Medicine

Grand Rounds

December 19, 2016
MONDAY
12:00 – 1:00PM

Pathology Building, PATH 1002
4400 V Street
Sacramento, CA 95817

Richard Levenson, MD
Professor and Vice Chair of Strategic Technologies
Department of Pathology and Laboratory Medicine
UC Davis Health System

Presents,
“Microscopy with UV Surface Excitation (MUSE): Pathology in a Hurry and on a Budget”

Objectives:

1. Understand the technical principles that enable MUSE microscopy.
2. Critically evaluate strengths and weaknesses comparing traditional and non-traditional microscopy methods.
3. Appreciate that technical innovation in one area can impact overall medical system processes and patient experience.
