

Rosemary Cress, M.P.H., Ph.D.

Clinical Interests	Dr. Cress' current research activities include use of cancer registry data to identify disparities in treatment and survival for patients with ovarian cancer, colorectal cancer and lung cancer. She is also actively involved with expanding cancer epidemiology and population sciences at the UC Davis Comprehensive Cancer Center, where she works with academic and clinical researchers to identify areas where California Cancer Registry and SEER data can be used to answer questions about cancer diagnosis, treatment and survival.
