

Paul J. Donald

Clinical/Research Interests

Paul J. Donald's clinical practice focuses on head and neck oncology; skull base and sinus surgery; and plastic and reconstructive head and neck surgery. His research concentrates on the pathophysiology of head and neck cancer, especially as it relates to the skull base. Donald is a reviewer for several national medical journals and has written or contributed to 74 book chapters, 149 journal publications, three textbooks, and two self-instructional packages.
