

Cynthia Zierhut, Ph.D.

Clinical Interests	<p>My clinical interests are focused on the early treatment of autism and family factors related to the early treatment of autism, as well as the diagnostic assessment of very young children (0-3 yrs.) with expertise in the early identification of autism.</p> <p>My research activities include assisting Dr. Sally Rogers in providing clinical oversight to the MIND Institute treatment team of the Early Steps Study. The Early Steps Study is a NIH-funded, ACE Network grant involving a multisite randomized clinical trial which is examining the efficacy of the Early Start Denver Model as a treatment approach in early autism.</p>
Specialty	Psychology
Department	MIND Institute
Clinic	MIND Institute
Center/Program Affiliation	UC Davis MIND Institute
