

LiHong Qi, M.S., Ph.D.

Research/Academic Interests	Dr. Qi's research interests include: design and analysis of genetic association studies, study of complex traits including cancer, survival analysis, modeling missing data and measurement error problems.
Title	Associate Professor, PhD
Specialty	Quantitative Methods, Biostatistics
Department	Public Health Sciences
Division	Public Health Sciences
Address/Phone	UC Davis School of Medicine - Medical Sciences 1C, Suite 145 Davis, CA 95616
Languages	Chinese (Mandarin)
Education	M.S., Biostatistics, University of Washington, Seattle WA 2000 Ph.D., Biostatistics, University of Washington, Seattle WA 2003 M.S., Statistics, Florida State University, Tallahassee FL 1998 M.S., Applied Mathematics, Peking University, Beijing, P.R. China 1996 B.S., Liaoning University, Liaoning, P.R. China 1993
Professional Memberships	American Society of Human Genetics American Statistical Association CAUCUS for Women in Statistics International Genetic Epidemiology Society Western North American Region of the International Biometric Society (WNAR/IBS)
Honors and Awards	Academic Senate Research Travel Award, University of California Davis, Davis, CA, 2011 WNAR/IMS Student Paper Award, 2004
