

Samuel Louie, M.D.

Philosophy of Care	Empathy is not an occupational hazard for me. The treatment of my patients' diseases may be impersonal, but the education and care of every patient I have is completely personal. Find the courage to change your health and lifestyle, and then find me to do a clinical trial of one. When you can't breathe, nothing else matters.
Clinical Interests	Dr. Louie directs the UC Davis Asthma Network (UCAN) and the ROAD Center. ROAD (Reversible Obstructive Airway Diseases) includes COPD and the Asthma-COPD Overlap Syndrome. His research interests include asthma, chronic obstructive pulmonary disease, pulmonary rehabilitation and clinical outcomes in chronic disease management.
