

Christopher L. Bowlus, M.D.

Philosophy of Care	Technology has led to tremendous improvements in the care of patients, but the physician's greatest tool remains the ability to listen.
Clinical Interests	Christopher L. Bowlus specializes in autoimmune liver diseases, specifically primary biliary cirrhosis, primary sclerosing cholangitis, and autoimmune hepatitis. He also cares for patients with hepatitis B.
Research/Academic Interests	Dr. Bowlus is interested in elucidating the underlying genetic and immunologic causes of autoimmune liver diseases and using this information to develop more effective treatments for these conditions.
