

Nanette C. Joyce, D.O., M.A.S.

Philosophy of Care Dr. Joyce believes in multidisciplinary patient centered care for treatment and education of rare neuromuscular disorders.

Clinical Interests Dr. Joyce specializes in Physical Medicine and Rehabilitation with a subspecialty in Neuromuscular Medicine. Her clinical interests focus on the diagnosis and treatment of motor neuron diseases, muscular dystrophies and myopathies. Dr. Joyce also specializes in electrodiagnostic medicine. Additionally, she is uniquely trained in the use of ultrasound to diagnose diaphragm dysfunction in patients with diaphragm paralysis due to motor neuron loss or phrenic nerve abnormalities.

Research/Academic Interests Dr. Joyce completed a clinical research fellowship sponsored by the California Institute of Regenerative Medicine working to develop a stem cell therapy for patients diagnosed with ALS. She continues to be part of a translational stem cell team, at the Institute for Regenerative Cures, that is dedicated to bringing stem cell therapies to clinic for patients with neuromuscular disorders. In addition, her clinical research interest focuses on developing better diagnostic strategies and treatments for patients with ALS and other neuromuscular diseases.

Title Assistant Professor of Clinical Physical Medicine and Rehabilitation
Co-Director of the Multidisciplinary ALS Clinic
Associate Director of the ACGME Neuromuscular Medicine Fellowship

Specialty Neuromuscular Medicine, Physical Medicine and Rehabilitation, Electrodiagnostic Medicine

Department Physical Medicine and Rehabilitation

Division Physical Medicine and Rehabilitation
