

Fatima Jafri, M.D.

Philosophy of Care	At the end of every patient visit I make sure that I have answered all the questions and concerns that the patient or their caregivers have to their full satisfaction. For me practicing medicine is a way to make a difference in peoples' lives. I strongly believe in disease prevention by life style modifications; for example, regular exercise and healthy dietary habits.
Clinical Interests	Dr. Jafri's clinical interests include diabetes, anemia, and thyroid disorders. Her research interests focus on cancer pain and depression.
