

## Johann Peterson, M.D.

Philosophy of Care I enjoy the company of children and I like to see them happy. I know that GI problems can have a

huge impact on a child's quality of life. I chose gastroenterology as a field because I find it satisfying to address the diagnostic challenges using basic physiology and to find a treatment

strategy that is compatible with my patient's preferences.

Clinical Interests I take care of patients with a range of gastrointestinal, nutritional and liver disorders including

 $inflammatory\ bowel\ disease,\ infections,\ liver\ disease,\ functional\ gastrointestinal\ disorders\ and$ 

motility problems, feeding and nutritional difficulties.

My research has been in the development and function of the enteric nervous system.

Title Assistant Professor of Clinical Pediatrics, Step II

**Specialty** Pediatric Gastroenterology

**Department** Pediatrics

**Division** Pediatric Gastroenterology and Nutrition

Center/Program Affiliation <u>UC Davis Children's Hospital</u>

Address/Phone Glassrock Building, Pediatric Specialty Clinics, 2521 Stockton Blvd. Suite 3200 Sacramento, CA
