

Cheryl W. Vance, M.D.

Clinical Interests	Cheryl W. Vance's specialty lies in the emergent care of pediatric, medical and trauma cases, including asthma, seizures, resuscitation, and blunt abdominal, cervical spine and head injuries. In addition to performing patient care, Vance teaches staff and medical students about pediatric emergencies. Her current research interests include CT evaluation of pediatric head trauma and cervical spine injuries. Her snow skiing and rock climbing activities and her knowledge of the risks they present allow her to personalize care for those suffering from traumatic situations.
