

Chin-Shang Li, Ph.D.

Clinical Interests	Chin-Shang Li's activities and research interests include lack-of-fit tests, cure models (including survival analysis), semiparametric and nonparametric regression, generalized linear models, longitudinal data analysis, statistical methodology for genetic data, large sample theory and design of clinical trials.
Title	Professor, Ph.D.
Specialty	Public Health Sciences- Division of Biostatistics
Department	Public Health Sciences
Address/Phone	UC Davis School of Medicine - Medical Sciences 1C, Suite 145 Davis, CA 95616
Email	cssli@ucdavis.edu
Languages	Chinese (Mandarin), Taiwanese
Education	M.S., Applied Mathematics, National Chung Hsing University, Taichung, Taiwan, R.O.C. 1986 Ph.D., Statistics, Texas A&M University, College Station, Texas, 1997 B.S., National Chung Hsing University, Taichung, Taiwan, R.O.C. 1984
Professional Memberships	American Statistical Association Institute of Mathematical Statistics International Chinese Statistical Association,
Honors and Awards	Caffey Award (John Kirkpatrick Young Investigator Award) - Best Basic Science Paper, Quantitative measurement of microbubble ultrasound contrast agent flow To assess the efficacy of angiogenesis inhibitors in vivo, McCarville, B., Streck, C, Li, C.S., and Davidoff, A. The Society for Pediatric Radiology., 2005 Scholarship for outstanding graduate student in the Department of Applied Mathematics at National Chung Hsing University, 1985
Select Recent Publications	Boudreault, D.J., Li, C.S., and Wong, M.S . The effect of Web-based education on patient satisfaction, consultation time and conversion to surgery. Annals of Plastic Surgery, 2016;176:108-110.
