

Lorena Garcia, M.P.H., Dr.P.H.

Research/Academic Interests

Lorena Garcia is an Associate Professor of Epidemiology at the UC Davis School of Medicine. Her research focuses on health disparities and social determinants of health, in particular cardiovascular related health outcomes such as obesity and diabetes, and immigrant health in the Latino community.

As Director of Undergraduate Education in the Department of Public Health Sciences, she is leading a new program of courses with a focus on health disparities & social determinants of health in the US. Dr. Garcia received her doctorate in public health from the Department of Epidemiology at UCLA and a master's degree in public health from the Department of Epidemiology and Biostatistics at Boston University.
