

David A. White, M.D.

Clinical Interests	David A. White's clinical interests include fiber optic intubation and airway management. He reviewed the anesthesia and analgesia manuscript for critical and trauma care at UC Davis Medical Center, and also served as a consultant and reviewer for the FDA study of the drug mivacurium. White's research interests focus on regulation of skeletal muscle acetylcholine receptors and their effect on neuromuscular blockers, effects of cholinesterase inhibitors on neuromuscular blocking action of suxamethonium, and the relationship of systolic pressure and stroke volume to myocardial contractility.
Title	Emeritus Associate Professor
Specialty	Anesthesiology
Department	Anesthesiology
Division	General Anesthesiology
Address/Phone	Patient Support Services Building, 4150 V St. Suite 1200 Sacramento, CA 95817 Phone: 916-734-5028
Additional Phone	Physician Referrals: 800-4-UCDAVIS (800-482-3284)
Education	M.D., UC Irvine College of Medicine, Irvine, California, 1979 B.S., UC Irvine, Irvine, California, 1973
Internships	University of California, Davis Medical Center, Sacramento, California, 1979-80
Residency	University of California, Davis Medical Center, Sacramento, California, 1980-83
Board Certifications	American Board of Anesthesiology, 1985
Professional Memberships	American Society of Anesthesiologists Association of University Anesthesiologists California Society of Anesthesiologists International Anesthesiologists Research Society
Select Recent Publications	Fung DL, White DA, Gronert GA, Disbow E. The changing pharmacodynamics of metocurine identify the onset and offset of canine gastrocnemius disuse atrophy. <i>Anesthesiology</i> 1995;83(1): 134-140
