

Paul G. Seites, M.D.

Philosophy of Care	I enjoy the variety of disciplines, the challenge and the breadth of knowledge of working in family practice. I always treat people the way I would want to be treated, and I strive to enable my patients to make informed, intelligent decisions regarding their medical care. I would characterize my practice as being patient-friendly, accessible and approachable. I emphasize preventive measures with my patients, including proper diet, exercise and early intervention when needed. At UC Davis Medical Group, I can serve my patients well because of my ability to draw on the expertise of the UC Davis Medical Center and bring this knowledge into our community.
Clinical Interests	Paul G. Seites enjoys the variety of disciplines and breadth of knowledge involved in family practice. To help patients achieve optimum health, he emphasizes preventive measures, including proper diet, exercise and early intervention as needed.
