

Marci L. Snodgrass, M.D., M.Ed.

Philosophy of Care Being a family physician allows me to work with a diverse group of people in all stages of life — educating, motivating and empowering them to maintain good health. I feel especially privileged to practice obstetric care and to help give newborns the best possible start in life. One of my highest priorities is helping my patients understand how their social and emotional well-being, as well as good diet and regular exercise, impact their physical health. As a UC Davis Medical Group physician, I have immediate access to a wide array of specialists at UC Davis Medical Center, one of the best academic medical centers in the nation. Having grown up in Davis, I look forward to beginning my practice here.

Clinical Interests As a family practitioner, Marci L. Snodgrass works with a diverse group of children and adults in all stages of life, including obstetric and pediatric patients. She enjoys educating and motivating patients to maintain good health.
