UC Davis Medical Group offers nationally renowned primary care and specialty expertise based at UC Davis Medical Center and multiple medical offices across the greater Sacramento region. Medical group physicians, nurse practitioners and clinical nurse specialists emphasize wellness and prevention, apply the latest knowledge to solve health problems and offer access to promising clinical trials, newly proven therapies and advanced technologies when needed.

FOR PATIENTS

**Find a UC Davis physician, nurse practitioner or clinical nurse specialist**
Consumer Resource Center: 800-2-UCDAVIS (800-282-3284)

- General information about available providers and services
- Assistance with appointments and referrals
- Information about accepted insurance plans

Established UC Davis patients can also use the MyChart web-based portal to communicate with their care teams, request certain appointments and refills, access medical records and more.

FOR HEALTH PROFESSIONALS

**Outpatient referrals and provider phone consultations**
UC Davis Physician Referral Center: 800-4-UCDAVIS (800-482-3284) Option #2 Monday | Friday, 8 a.m. to 5 p.m. Or online (non-urgent) requests via referrals.ucdavis.edu

- Information about availability of specialty services
- Coordination and status of referrals to specialty services
- Assistance for provider-to-provider phone consultations with specialists

**Acute interfacility transfers and after-hours consultations**
24/7 Transfer Center: 800-4-UCDAVIS (800-482-3284)

- Round-the-clock, R.N.-led coordination of acute interfacility transfers
- After-hours coordination of emergent provider-to-provider telephone consultations for complex or unusual cases
- Transfer requests evaluated based upon clinical urgency, availability of resources and other factors

Referring physicians can receive real-time access to test results and clinical information for their patients at UC Davis through the PhysicianConnect online electronic medical record.
Robin J. Aldwinckle, M.D.

Title: Associate Professor

Dua Massey Anderson welcomes LGBT patients.

**Philosophy of Care**

In my practice, excellence in care is the goal in every single patient encounter. It is so important to communicate well with patients, families, and colleagues to give the safest and most comfortable experience possible.

I am honored to work with members of UC Davis Medical Center and Children's Hospital to give such amazing focus to our most precious patients.

**Clinical Interests**

Dr. Anderson has strong interests in Pediatric Anesthesiology and Congenital Cardiac patients and procedures. She is also passionate about academic practice, both in terms of clinical teaching as well as clinical research.

**Research/Academic Interests**

Dr. Anderson's research interests include Congenital Cardiac Anesthesia, intraoperative transfusion practices, and resident education. She also contributes to Quality and Safety Initiatives within clinical practice.

David J. Copenhaver, M.D., M.P.H.

Philosophy of Care
Cancer Pain Management and Supportive Care - Using all means necessary to reduce pain, improve function and the quality of our patient's lives.

Clinical Interests
Cancer Pain Management and Supportive Care
Pain Medicine Education and Telementoring - Improving pain care across the state of California and beyond through the use of technology.

Research/Academic Interests
Dr. David Copenhaver is a board certified anesthesiologist and pain medicine specialist and faculty in the Anesthesiology and Pain Medicine at UC Davis Health Center.
Dr. Copenhaver is the director of Cancer Pain Management and Supportive Care Program in addition to the Pain Medicine Telehealth program at UC Davis.
Dr. Copenhaver has research interests in health services administration, pain medicine education, responsible opioid management, targeted drug delivery, and the applied use of stem cells in the setting of intervertebral disc disease.
Copenhaver completed his undergraduate degrees in Neuroscience, Physiology and Behavior at UC Davis. He subsequently went on to UCLA to complete his medical school education and a master's degree in public health. Dr. Copenhaver completed his residency in Anesthesiology at Columbia University College of Physicians and Surgeons and his pain medicine fellowship at UC Davis.

Rosa Farrer-O'Bryant, M.D.

**Philosophy of Care**
Each patient is unique and deserves a customized and safe anesthetic.

**Clinical Interests**
Dr Farrer-O'Bryant provides anesthesia to adult patients and specializes in caring for patients needing otolaryngology surgery. Her interests include resident education and the difficult airway. She currently serves as the Director of the Difficult Airway Rotation.

**Title**
Assistant Clinical Professor, Anesthesiology and Pain Medicine
Rotation Director, Difficult Airway

Michael John Ferns, B.Sc.(Hons), Ph.D.

Clinical Interests
My interest is in diseases of cholinergic neuromuscular and autonomic synapses, such as myasthenia gravis and congenital myasthenic syndrome. Our aim is to understand the pathological basis for these diseases at a molecular level and to define new therapeutic targets for the treatment of these disorders.

Research/Academic Interests
My research interest is in understanding the cellular and molecular basis of synapse formation in the mammalian nervous system. Synapse formation is critical for the formation, maintenance and plasticity of the nervous system and perturbations in synaptic structure and function have been implicated in a range of neurological disorders.

My research focuses on cholinergic synapses that play critical roles in the functioning of both the peripheral and central nervous systems. Our main aims are (1) to define the extracellular synaptogenic factors that regulate the formation and maintenance of neuromuscular and neuronal autonomic synapses in the PNS; (2) to define the intracellular mechanisms that regulate the trafficking and localization of nicotinic acetylcholine receptors at these synapses; and (3) to establish how defects in synapse formation or receptor localization contribute to neurological diseases such as myasthenia gravis and congenital myasthenic syndromes. This includes collaborative studies with clinician-scientists at UCDavis.

Nina Schloemerkemper welcomes LGBT patients.

**Philosophy of Care**

Most patients feel anxious when they are about to have surgery. Dr. Schloemerkemper tries to alleviate this by strengthening the patient-doctor-relationship and taking patients' concerns seriously. She believes that kindness and honesty are vital. Every patient deserves a customized approach to their anesthetic. There is no one-size-fits-all.

**Clinical Interests**

Nina Schloemerkemper joined UC Davis Medical Center in September 2010. She is the Director of the Neuroanesthesia Rotation, which means that she is particularly interested in caring for patients undergoing surgery of the brain or spine. In this role she also oversees the training of the residents in this subspecialty.

Apart from Neuroanesthesia she has a particular interest in the management of the difficult airway, peri-operative allergic reactions and anaphylaxis as well as resident education.

She is part of the OB anesthesia team.

**Research/Academic Interests**

Originally from Germany, Nina Schloemerkemper earned her medical degree in 2001 at the University of Lübeck, Germany. She then went on to complete doctoral studies at the same university before starting her anesthesia training at the University of Kiel, Germany.

She completed her training while rotating through several hospitals within London, UK including St. George’s Hospital. She became a Fellow of the Royal College of Anaesthetists (FRCA) in 2006 and board certified in Germany in 2008.

Samir Jayraj Sheth, M.D.

Samir Jayraj Sheth welcomes LGBT patients.

Clinical Interests

Dr. Sheth completed his residency in Anesthesiology at Columbia University in New York City and his fellowship in Pain Medicine at the University of California, Davis in Sacramento, CA. He is board certified in both Anesthesiology and Pain Medicine.

As co-director of neuromodulation, much of his interest in pain medicine involves the mechanism of spinal cord stimulation and the treatment of persistent, neuropathic pain with spinal cord stimulation.

He also has an interest in furthering the field of evidenced-based pain medicine. Dr. Sheth's goal is to provide a safe, comprehensive approach to minimize pain.

He has published chapters in pain medicine textbooks and is actively involved in research projects involving low back and neck pain.

Research/Academic Interests

Dr. Sheth's research interests include: Spinal Cord Stimulation, Neuropathic Pain, Radiofrequency Ablation, and Ultrasound Guided Techniques.

David A. White's clinical interests include fiber optic intubation and airway management. He reviewed the anesthesia and analgesia manuscript for critical and trauma care at UC Davis Medical Center, and also served as a consultant and reviewer for the FDA study of the drug mivacurium. White's research interests focus on regulation of skeletal muscle acetylcholine receptors and their effect on neuromuscular blockers, effects of cholinesterase inhibitors on neuromuscular blocking action of suxamethonium, and the relationship of systolic pressure and stroke volume to myocardial contractility.
