

Allen Gao, M.D., Ph.D.

Clinical Interests Dr. Gao's research interests focus on understanding molecular mechanisms associated with progression of castration-resistant prostate cancer and metastasis to bone with the goal of identification of potential therapeutic targets for prostate cancer. Particular emphasis includes microRNAs, aberrant androgen receptor activation by cytokines and transcriptional factors such as Stat3 and NF-kB, selenium chemoprevention and therapy, and targeting cell signaling pathways (AR, IL-6 and Stat3) in prostate cancer. Dr. Gao's lab was among the first to find that selenium regulates androgen signaling, find that IL-4 activates androgen receptor mediated by NF-kB and Stat6, made the discovery that IL-6 signaling in prostate cancer involves Stat3, and defined Stat3 and NF-kB interactions in prostate cancer. Dr. Gao has published over 60 peer-reviewed articles on the area of prostate cancers. Dr. Gao has served numerous NCI, DOD, and VA merits, and ACS review panels including SPORE and PPG study sections.

Title Professor
Ralph de Vere White Professor and Director of Urologic Research
Co-Leader, Prostate Cancer Program

Specialty [Cancer](#), Urologic Oncology, [Urology](#)

Department [Urology](#)

Division Urology

Clinic Urology Clinic

Center/Program Affiliation [UC Davis Comprehensive Cancer Center](#)

Education M.D., Sichuan Medical College, Chengdu, Sichuan, 1985
Ph.D., University of Texas, Houston, School of Public Health, Houston, Texas, 1995

Fellowships John Hopkins University School of Medicine, Baltimore, Maryland, 1998

Professional Memberships Ad Hoc Member for NIH DMP Study Section
Ad Hoc member for NIH Metabolic Study Section
Ad Hoc reviewer for NIH Tumor Microenvironment study section
Editorial Board, The Prostate
Member, ACS TBE study section
NCI Special Emphasis Panel, Cancer Prognosis and Prediction

Allen Gao, M.D., Ph.D.

Honors and Awards

Reviewer Committee Member, O'Brien Urology Center Program
Scientific Reviewer Panel, DOD Prostate Cancer Program, Breast Cancer Program
Ralph deVere White Endowed Professor of Urologic Research, University of California, Davis, 2008
First prize award, AUA Assay Contest, Gleave, M., Hsieh JT, Gao A.C. Von Eschenbach A.C., and Chung L.W.K. Acceleration of Human Prostate Cancer Growth in vivo by Factors Produced by Prostate and Bone Fibroblasts., 1991
