

Michael C. Lucien, M.D., M.P.H.

Philosophy of Care

I love working with children and helping families who wish to learn more about their health and adjust to constant developmental changes. I strive to perform friendly, efficient medical care in an encouraging and supportive environment. I consider a healthy environment essential to each patient's overall well-being. Positive role models, love and attention to each child's medical, social and emotional needs are also necessary. I am proud of the long-standing commitment of UC Davis to deliver care to all segments of the community, as well as its emphasis on patient education. In my practice I place emphasis on high-quality, general pediatric care, with the added ability to coordinate with all aspects of specialty care, when necessary.

Clinical Interests

Michael C. Lucien provides friendly, efficient medical care in an encouraging and supportive environment. He enjoys helping parents who wish to learn more about health and adjust to their child's constant developmental changes.
