

## Dean A. Blumberg, M.D.

<b>Philosophy of Care</b>	We live in an age where there are tremendous opportunities to keep children healthy by preventing infections. I aim to work with children and their parents to optimize health. When an infection is suspected or occurs, I partner with the parents and the child to ensure that appropriate diagnosis and treatment ensues.
<b>Clinical Interests</b>	Dr. Blumberg's main areas of interest are preventing and treating childhood infections. He is involved in clinical vaccine research and childhood immunization policies, and is also head of Infection Control at Shriners Hospital for Children Northern California.
<b>Research/Academic Interests</b>	Dr. Blumberg's research interests include clinical vaccine studies and prevention and treatment of surgical site infections.
