

Anthony Joseph Urquiza, Ph.D.

Clinical Interests	Anthony Joseph Urquiza specializes in the medical evaluation, psychological assessment and treatment of abused and neglected children, and is Director of the CAARE Center. His extensive clinical experience includes individual and group therapy for children and adults, family and marital therapy, and parent training. His research addresses family violence, including treatment approaches for physically abusive families, sexually abused children, and survivors of childhood sexual abuse; and psychodiagnostic issues related to child mistreatment. He is also Director of the PCIT Training Center-a program whose mission is to disseminate parent-child interaction therapy to community mental health treatment programs around the world.
