

# Jian Wu, B.M., M.S., Ph.D.

<b>Clinical Interests</b>	Dr. Wu is a faculty member in the Department of Internal Medicine, Transplant Research Program, School of Medicine, and a member of the Graduate Group of Comparative Pathology, UC Davis. His major research interests are to develop innovative therapeutic approaches for liver injury and fibrosis, including pharmacological, molecular and gene therapy, as well as cell-based therapy and organ-specific or cell type-specific targeting drug or gene delivery. He uses RNA interference (RNAi) strategies to develop clinically applicable therapeutics for the treatment of liver injury and fibrosis. His recent studies have focused on delivering antioxidative genes for the improvement of donor organ quality as well as graft function and survival.
<b>Title</b>	Adjunct Professor
<b>Specialty</b>	Gastroenterology and Hepatology, Internal Medicine
<b>Department</b>	Internal Medicine
<b>Division</b>	Gastroenterology and Hepatology
<b>Languages</b>	Chinese (Mandarin)
<b>Education</b>	B.M., Nantong University Medical College, Nantong, Jiangsu Province, 1983 M.S., Southeast University Medical College, Nanjing, Jiangsu Province, 1986 Ph.D., University of Umea Faculty of Medicine, Umea, 1994
<b>Residency</b>	Southeast University Medical College, Nanjing, Jiangsu Province, 1983-1986
<b>Fellowships</b>	Southeast University Medical College, Nanjing, Jiangsu Province, 1986-1988 Thomas Jefferson University, Jefferson Medical College, Philadelphia, Pennsylvania, 1995-1999
<b>Professional Memberships</b>	American Association for the Study of Liver Diseases (AASLD) American Society of Gene Therapy (ASGT) International Society of Stem Cell Research (ISRCR)
<b>Honors and Awards</b>	Innovative Development Award by the Academic Federation, UC Davis, 2006 Exploratory Research Award (R21) by the National Institute of Diabetes, Digestive and Kidney Diseases (NIDDK), 2005 Research Award from the American Cancer Society, 2003 Liver Scholar Award by the American Liver Foundation, 2000 National Service Research Award (NSRA) from the National Institutes of Health, the National

## Jian Wu, B.M., M.S., Ph.D.

Institute of Diabetes, Digestive and Kidney Diseases (NIDDK), 1997
