

Clinical Interests	<p>Gerhard Bauer is an assistant professor of hematology and oncology and director of the Good Manufacturing Practice (GMP) laboratory at the UC Davis Institute for Regenerative Cures. In addition to GMP design and construction expertise, Bauer also has extensive experience in the field of gene and cell therapy, having spent two decades developing novel clinical applications to improve medical outcomes for life-threatening illnesses.</p> <p>He also has investigated potential therapies for HIV, replacing the devastated immune system of an HIV-infected patient with cells that have been engineered to resist the virus. Bauer came to the UC Davis Health System in 2006 after designing and directing a state-of-the-art GMP laboratory at Washington University in St. Louis.</p>
Title	Associate Adjunct Professor Laboratory Director, GMP Facility
Specialty	Hematology/Oncology, Internal Medicine
Department	Internal Medicine
Division	Hematology and Oncology
Center/Program Affiliation	Institute for Regenerative Cures Stem Cell Research Program
Address/Phone	UC Davis Institute for Regenerative Cures (IRC), 2921 Stockton Blvd. Sacramento, CA 95817 Phone: 916-703-9300
Languages	German
Education	B.S., University Preparatory School, Wieselburg, Austria
Professional Memberships	American Society of Gene Therapy UC Davis Institutional Biosafety Committee UC Davis Medical School Admissions Committee UC Davis Translational Research Integration and Compliance Committee
