

Angelo de Mattos, M.D., M.P.H.

Philosophy of Care	Coinciding with the mission of the Department of Internal Medicine, my goal is to provide excellence in clinical care, research and education, and to deliver high-quality medical care with commitment to cutting-edge research and superior physician training.
Clinical Interests	My clinical interests focus on kidney and kidney-pancreas transplantation and Nephrology. My research focuses on seeking a better understanding of cardiovascular disease in individuals with chronic kidney disease and approaches to early detection and intervention. I am also interested in renal transplantation access, outcomes research, and recurrence of renal disease after transplantation.
