

Amr Badawi, M.D.

Philosophy of Care	Patients are treated as family members. Patients must be thoroughly educated about their health and any investigations and treatments that are ordered for them.
Clinical Interests	I am a passionate believer in the saying that “Prevention is better than cure,” and that if a treatment or cure is needed, then the more natural it is, the better. And hence the emphasis on what I call the three pillars of good health: Good exercise, Good nutrition and good sleep.
