

## Jonathan Eastman, M.D.

Philosophy of Care I believe that the osseous and soft tissue injuries of each patient are unique. Successful and optimal

treatment of each injury relies on the understanding of the fracture and the development of a plan that delivers the best care possible. I strive to provide the highest level of both conservative and operative management to my patients by combining classic methods of care along with safe, newly

emerging surgical techniques, devices, and treatment philosophies.

Clinical Interests My clinical interests include polytraumatized patients, long bone fractures, periarticular fractures,

the upper and lower extremities, and complex injuries of the pelvic ring and acetabulum.

Title Assistant Professor

**Specialty** Orthopaedic Surgery - Trauma

**Department** Orthopaedic Surgery

**Division** Traumatology

Address/Phone Lawrence J. Ellison Ambulatory Care Center, Orthopaedic Surgery, 4860 Y St. 3800 & 1700

(Clinic) Sacramento, CA 95817

Phone: 916-734-2700
