

## Haines Ely, M.D.

<b>Clinical Interests</b>	Dr. Haines Ely M.D has been teaching residents at UC Davis since 1975 (before there was a full time department of dermatology). He is particularly interested in dermatologic therapy and has lectured on the most recent advances in therapy all over this country as well as in Europe and Australia. In 1996 he spoke on "What's new in dermatologic therapy" at the American Academy of Dermatology annual meeting in Washington D.C. His topic was "Tumor necrosis factor inhibition in dermatologic disease." This was years before our current biological tn timers were discovered. He loves to see the most difficult cases with our residents and often comes up with novel therapies for untreatable conditions. He also has a special interest in teledermatology applications here at UC Davis and sees patients in the telemedicine department one day a week.
<b>Title</b>	Associate Physician
<b>Specialty</b>	<a href="#">Dermatology</a>
<b>Department</b>	Dermatology
<b>Division</b>	Dermatology
<b>Clinic</b>	Dermatology Clinic
<b>Address/Phone</b>	Cannery Building, Dermatology, 3301 C St. Suite 1300-1400 Sacramento, CA 95816 <b>Phone:</b> 916-734-6111
<b>Additional Phone</b>	Physician Referrals: 800-4-UCDAVIS (800-482-3284)
<b>Education</b>	M.D., University of Southern California, Los Angeles, California, 1971 A.B., Stanford University, Stanford, California, 1967
<b>Internships</b>	University of Southern California/Los Angeles County Medical Center, Los Angeles, California, 1972
<b>Residency</b>	University of Southern California/Los Angeles County Medical Center, Los Angeles, California, 1975
<b>Board Certifications</b>	American Board of Dermatology , 1976 American Board of Pathology, Dermatopathology, 1980
<b>Select Recent Publications</b>	Ely, H, Pascucci, A, Merkel Cell Carcinoma; Treatment with Bleomycin, 2008, Dermatology Online Journal, in press
