

Jean A. Wiedeman, M.D., Ph.D.

Clinical Interests	Jean A. Wiedeman specializes in the treatment of children with infectious diseases, especially complex clinical cases or those with problematic diagnostic and management intricacies. She has extensive experience managing the care of children who are HIV-positive or have AIDS and serves as a consultant for the only CCS-approved pediatric infectious diseases and immunology center in northeastern California. Wiedeman's current research involves the study of chlamydia pneumoniae and the role it may play in atherosclerosis.
Title	Associate Professor
Specialty	Pediatric Infectious Diseases
Department	Pediatrics
Division	Pediatric Infectious Diseases
Center/Program Affiliation	UC Davis Children's Hospital
Address/Phone	Glassrock Building, Pediatric Specialty Clinics, 2521 Stockton Blvd. Sacramento, CA 95817 Phone: 800-282-3284
Additional Phone	Physician Referrals: 800-4-UCDAVIS (800-482-3284)
Education	M.D., Southern Illinois University School of Medicine, Springfield, Illinois, 1980 B.A., Illinois Wesleyan University, Bloomington, Illinois, 1976
Internships	The University of Texas Medical School, San Antonio, Texas, 1980-81
Residency	The University of Texas Medical School, San Antonio, Texas, 1981-83
Fellowships	The University of Texas Health Science Center, San Antonio, Texas, 1983-85
Board Certifications	American Board of Pediatrics, 1985
Professional Memberships	American Academy of Pediatrics American Society of Microbiology Infectious Diseases Society of America Pediatric Infectious Diseases Society Society for General Microbiology - United Kingdom
